APRIL 2019
HACKQUARANTINE

Participant

Online Hackathon focused on solutions for the 2020 COVID pandemic. Along with other participants, we represented Ctrl Alt Tec and learned a lot collectively. We developed a tool for contact tracing based on geographic proximity

AUGUST 2019
BBVA HACKATHON

Participant

3 day Hackathon held by Spanish bank BBVA in their Mexico City Offices. Participated in the Global Hits Challenge focused on processing massive amounts of data regarding customer service

AUGUST 2019
HACKMTY

1st place winner

Hackathon held in Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Monterrey. My team participated in the Konfío and JDA (now BlueYonder) challenge regarding clearer and smarter income/expenses dashboards and machine learning predictions respectively. My team won first place for the latter and got invited to their offices in Monterrey and Arizona

APRIL 2019
HACKMX 2

Participant

Hackathon held in Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Ciudad de México. My team participated in the Liverpool challenge consisting in using AR to provide a better shopping experience during the holidays. We developed an app featuring the store's mascot that served as an AR virtual assistant while shopping.

2018
#100DAYSOFCODE

Participant

100 Days of code is a Twitter challenge where participants need to do several projects for 100 days straight and document their learning progress

APRIL 2018
HACKMX

Participant

Hackathon held in Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Santa Fe. On the first edition of HackMX we were among the only High School participants, and we participated in the Santander Challenge consisting in recommending credit/debit cards to customers based on their interests and profiles

NOVEMBER 2017
PREPA TEC APPS (NOW PREPAPPSTEC)

Selected Campus Representatives

Prepa Tec Apps is an inter-campus competition held by PrepaTec that aims to select technologically advanced projects from students across different campuses. My team had previously developed an app and business model for a shared economy app for home maintenance with which we represented our campus

NOVEMBER 2017
INCMTY

Participants

incMTY is one of the most important Latin American entrepreneurship events, held in Monterrey. As participants of Prepa Tec Apps we were given the opportunity to pitch our idea to several judges in the event
